

PERIPHERAL VASCULAR SURGERY

Procedure Date: _____

Please follow your surgeon's specific prep instructions prior to your procedure. He will give them to you in the office.

LOCATION: Ambulatory Cardiac Unit (inside the Aultman Heart and Vascular Center)

WHAT TIME SHOULD I ARRIVE?

The hospital surgical staff will call you in the afternoon the day prior to your procedure with your arrival time. The approximate time of your procedure is not known until the day before your procedure. If you will not be available at that time to receive the call, or if you don't get a call by 4 p.m., please call to confirm your arrival time.

- Surgical scheduling: 330-363-0254

Please use the **Bedford (6th Street) entrance on arrival to the hospital.**

INSTRUCTIONS:

- Please review this information prior to coming to the hospital.
- You will be given an appointment to have your preadmission testing done. Please bring all your medications with you to your appointment.
- Do not eat or drink anything except for sips of water with your medication(s) after midnight the night before your procedure.
- Please bring all your medications to the hospital the day of your procedure. They will be sent home with you. **You will not be permitted** to take medications brought in from home while you are in the hospital.
- Other instructions _____

SUMMARY OF THE PROCEDURE: Peripheral vascular surgery is done to relieve blood vessel blockages, usually in the legs or abdomen. A specially trained doctor, known as a vascular surgeon, will perform your procedure.

WHAT TO EXPECT: You will be given a general anesthesia and will not be awake or feel pain during the surgery. During the procedure, your vascular surgeon will make incisions to either remove the blockage or bypass the blockage in the blood vessel.

- **Endarterectomy:** The surgeon will make an incision at the site of the blockage, then make a length-wise incision along the portion of the artery containing the plaque. The plaque is removed using a special spatula, and in some cases, the diseased portion of

the vessel is also removed. The blood vessel is often closed with a patch made from your blood vessel or synthetic material.

- **Bypass procedure:** The surgeon will make an incision and connect a graft (either from your blood vessel or a man-made synthetic material) above and below the blocked area. This will bypass the blocked area and restore blood flow.

WHAT TO BRING TO THE HOSPITAL:

- This packet of information.
- A copy of your living will or durable power of attorney for health care (advance directives) if you have one.
- Any toiletry items you would like.
- Bring all your current medications. **You will not be permitted** to take your home medications while in the hospital, but the nurses need the names(s) and dosage(s) of each medication.
- Please **do not bring valuables** to the hospital such as purse, wallet, jewelry, money, credit cards, etc. Bring only your ID and insurance cards.

LENGTH OF THE PROCEDURE: The procedure usually takes one-and-a-half to five hours, but you may be in the surgical area for longer for your surgical preparation and recovery.

AFTER THE PROCEDURE: You will most likely be admitted to the Surgical Intensive Care Unit (SICU) for a few days to recover from the surgery.

QUESTIONS PRIOR TO YOUR PROCEDURE:

Call your doctor office for any questions about your procedure.

SCHEDULING AND REGISTRATION: Pre-registration is required for an accurate medical record and proper billing. You may be contacted by a patient access representative if we need any information. If you have questions or need to reschedule your surgery, please call the doctor who will be doing your procedure.

HOSPITAL PARKING:

Free visitor parking is available in Lot 3 across from the Bedford building. Enter from 6th Street. Valet parking is available at the 7th Street and Bedford building entrances for a fee – or free if you are a handicapped motorist. Deck parking is available on 7th Street for a fee based on your length of stay.

DIRECTIONS TO THE DEPARTMENT: Heart and Vascular Center (Lot 3 parking is the closest parking) is located on the first floor of the Bedford building. After entering the Bedford lobby, turn to your right and enter the Heart and Vascular Center. Please sign in on the kiosk (iPad) by typing in your name and have a seat on the left side of the waiting room until you are called.
