

WELCOME TO AMOENA CUSTOM BREAST FORMS

A new Amoena innovation that's taking personalized technology to a whole new level.

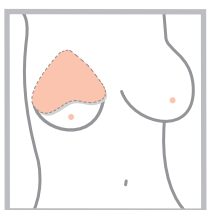

An Amoena custom breast form gives you a **personalized, intimate fit** that traditional off-the-shelf breast forms may not offer. Any woman who's had breast cancer surgery is a candidate for a custom form.*

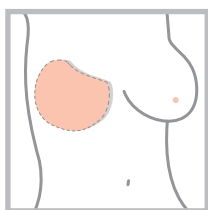

Unilateral or bilateral mastectomy

Breast-conserving surgery

Reconstruction with or without complications

Implant removal

*Insurance coverage may depend on medical necessity.

amoena

Supporting Confidence

Amoena Custom is produced at the high standards Amoena is known for. A soft matte film encases patented InTouch silicone — offering the most natural feeling form in the safe, hygienic environment you need. Plus, a modular system of options give you the freedom to design a form perfect for you.

How does it work?

- 1 We'll do a quick, simple scan of your chest wall, and while you're wearing a bra.
- 2 You'll choose the weight and innovative Amoena features to make it a form perfectly designed for you.
- 3 Amoena engineers will use the scans to create a breast form that matches your unique shape and specifications.
- 4 We'll handle insurance pre-approval, and in about 6 weeks, do a final fitting with your new Amoena Custom breast form.

We can't wait to tell you more.

Schedule a free consultation and you'll be on your way to a form that is designed just for you.
