

## JOB RESPONSIBILITIES

Completes patient pre- and post-anesthesia assessment, as well as evaluation

Performs and monitors regional, general and other anesthesia techniques

Responds to emergency situations when necessary

## REQUIREMENTS

CRNA program graduate accredited by the Council on Accreditation of Nurse Anesthesia Education Programs or its predecessor

Master's degree in nursing and minimum two years of acute care nursing experience

Current Ohio RN licensure and complies with APRN requirements

## CERTIFIED REGISTERED NURSE ANESTHETIST (CRNA)

Our extremely successful, hospital-employed team is recruiting motivated, quality-focused CRNAs to provide care across the healthcare delivery system. CRNAs collaborate with anesthesiologists to deliver quality care to our patients. Anesthetizing locations include: full spectrum general and cardiac surgery, as well as labor and delivery. The main OR encompasses 18 rooms, while cardiac covers EP lab, cardiac cath labs, four CVORs and a hybrid OR. Labor and delivery has 32 LDRP suites and three surgical ORs.
